Gemini Industries, Inc.	Understanding Containers GP	
Standard Operating Procedure		GPPACK-24-0001 01
Author	**Status**	**Effective Date**
Mike Boyd	Final	02/22/24

1.0   Purpose

The purpose of this SOP is to provide details for the different types of containers that are used at Gemini. This document will help distinguish between the various types of containers as many of them look similar. **Always refer to the batch ticket to identify the correct container needed**.

2.0   Scope

This SOP is to be used as a reference to identify all needed containers used in the batch filling process. Our customers need the different types of containers for various reasons. **It is important that each product is filled into the correct container to ensure that our customer's needs are fulfilled.**

3.0   Safety

4.0   Understanding Containers in GP

4.1   **Refer to the batch ticket to identify the proper containers needed.**

4.2   **Gather appropriate containers and lids where the batch is to be filled.**
