## 275 VOC LACQUER SYSTEMS

275 VOC Lacquer Systems are designed for professional woodworkers who expect to combine performance with ease of use in a high-solids, lower VOC finish. The 275 VOC family of lacquers and undercoaters are available as Precatalyzed and Nitrocellulose Lacquer formulas in White and Water White finishes.

### PRECATALYZED LACQUER SYSTEMS

UltraLaq® 275 VOC Precatalyzed Lacquers (1M.226X and 1D.221X series) are designed for professional woodworkers who demand maximum performance in a high solids, ready-to-spray finish. Formulated to be used directly on properly prepared wood with the use of an approved 275 VOC Sealer/Undercoater. These products are HAPs and VOC compliant.

#### UltraLaq® 275 VOC White Precatalyzed Lacquer (1M.226X series)

- 1M.2269 UltraLaq® 275 VOC White Precatalyzed Lacquer – Gloss
- 1M.2266 UltraLaq® 275 VOC White Precatalyzed Lacquer – Semi-Gloss
- 1M.2264 UltraLaq® 275 VOC White Precatalyzed Lacquer – Satin
- 1M.2261 UltraLaq® 275 VOC White Precatalyzed Lacquer – Flat

#### UltraLaq® 275 VOC Water White Precatalyzed Lacquer (1D.221X series)

- 1D.2219 UltraLaq® 275 VOC Water White Precatalyzed Lacquer – Gloss
- 1D.2216 UltraLaq® 275 VOC Water White Precatalyzed Lacquer – Semi-Gloss
- 1D.2214 UltraLaq® 275 VOC Water White Precatalyzed Lacquer – Satin
- 1D.2212 UltraLaq® 275 VOC Water White Precatalyzed Lacquer – Dull
- 1D.2211 UltraLaq® 275 VOC Water White Precatalyzed Lacquer – Flat

## 275 VOC LACQUER SYSTEMS

### NITROCELLULOSE LACQUER SYSTEMS

DuraLaq® 275 VOC Nitrocellulose Lacquers (1LL.231X and 1LL.242X series) are designed for professional woodworkers in a high-solids, ready-to-spray finish. These products are formulated with cutting edge resins and designed with a balanced solvent blend at 275 VOC that can be used directly on properly prepared wood as a 3-coat self-sealing system or with the use of an approved 275 VOC sealer. These products are HAPs and VOC compliant.

#### DuraLaq® 275 VOC Water White Nitrocellulose Lacquer (1LL.231X series)

1LL.2316 DuraLaq® 275 VOC Water White Nitrocellulose Lacquer – Semi-Gloss  
1LL.2314 DuraLaq® 275 VOC Water White Nitrocellulose Lacquer – Satin

#### DuraLaq® 275 VOC Production High Build Nitrocellulose Lacquer (1LL.242X series)

1LL.2429 DuraLaq® 275 VOC Production High Build N/C Lacquer – Gloss  
1LL.2426 DuraLaq® 275 VOC Production High Build N/C Lacquer – Semi-Gloss  
1LL.2424 DuraLaq® 275 VOC Production High Build N/C Lacquer – Satin

#### DuraLaq® 275 VOC Pigmented White Nitrocellulose Lacquer (1M.230X series)

Designed to offer high-hiding properties along with perfect leveling to offer a premium white finish, these products are ideal for any interior wood finish. Primary benefits include an exceptional amount of solids for rapid build; fast-drying and excellent flow over primed substrates. These products are VOC and HAPs compliant.

1M.2309 DuraLaq® 275 VOC Pigmented White N/C Lacquer – Gloss  
1M.2306 DuraLaq® 275 VOC Pigmented White N/C Lacquer – Semi-Gloss  
1M.2304 DuraLaq® 275 VOC Pigmented White N/C Lacquer – Satin

### 275 VOC SEALERS

Recommended as a first coat for low VOC interior high-end lacquers. The optimal flow, fast dry, and high solids content make these sealers an ideal product to use where high build and depth of finish are required. They are ready-to-spray and formulated for flexibility, sandability, adhesion and build. 275 VOC sealers are HAPs and VOC compliant.

#### 1C.2138 UltraLaq® 275 VOC Water White Vinyl Sanding Sealer

This water-white sanding sealer is specially designed for use under all low VOC lacquers. Not for use under conversion varnishes.

#### 1C.2153 DuraLaq® 275 VOC Water White Lacquer Sanding Sealer

This water-white sanding sealer is specially designed for use under all nitrocellulose lacquer topcoats.

#### 1C.2350 DuraLaq® 275 VOC High Production Lacquer Sanding Sealer

This water-white sanding sealer is specially designed for use under all nitrocellulose lacquer topcoats.

### 275 VOC UNDERCOATERS

#### 1C.2395 DuraLaq® 275 VOC White Undercoater

Formulated for sandability and adhesion, the 1C.2395 undercoater is ideal for interior wood and furniture finishing. It is specially designed with high solids to provide optimal flow while maintaining its high-build superior hide. This product is HAPs and VOC compliant.
