MEGAVAR® HIGH PERFORMANCE CONVERSION VARNISHES

Exceptional durability for long-lasting results

MEGAVAR® WHITE FINISHES

MegaVar® White Conversion Varnish (1S.75X series)

Easy-to-apply, high-solids formula provides maximum performance in a pigmented finish. Once catalyzed, this fast drying finish offers superior protection against moisture and household chemicals. Use with MegaVar® 1S.750 Undercoater for a complete finishing system.

- 1S.758 MegaVar® White Conversion Varnish - Gloss
- 1S.756 MegaVar® White Conversion Varnish - Semi-Gloss
- 1S.754 MegaVar® White Conversion Varnish - Satin
- 1S.752 MegaVar® White Conversion Varnish - Dull Rubbed

MegaVar® Catalyzed White Undercoater (1S.750)

Once catalyzed, this fast-drying, VOC & HAPS compliant undercoater offers superior protection against moisture and household chemicals. The high solids formula (over 60%) is ready to sand in 30 minutes and builds to a beautiful and durable film once cured.

MEGAVAR® CLEAR FINISHES

MegaVar® Plus High-Solids Water White Conversion Varnish (1M.630X series)

High-solids, two-component clear finish provides superior protection against moisture and household chemicals. With 50% solids, these fast drying and non-yellowing varnishes achieve excellent flow and leveling and build to a durable film that fully cures within 2-3 days after the final coat.

- 1M.6309 MegaVar® Plus High-Solids Water White Conversion Varnish – Gloss
- 1M.6306 MegaVar® Plus High-Solids Water White Conversion Varnish – Semi-Gloss
- 1M.6304 MegaVar® Plus High-Solids Water White Conversion Varnish – Satin
- 1M.6302 MegaVar® Plus High-Solids Water White Conversion Varnish – Dull Rubbed
- 1M.6301 MegaVar® Plus High-Solids Water White Conversion Varnish – Flat

MegaVar® Water White Conversion Varnish (1M.430X series)

Provides an easy-to-apply solution for two-component finishing while achieving a durable, self-sealing, high clarity film. Once catalyzed, this fast drying finish offers maximum protection against moisture and household chemicals.

- 1M.4309 MegaVar® Water White Conversion Varnish – Gloss
- 1M.4306 MegaVar® Water White Conversion Varnish – Semi-Gloss
- 1M.4304 MegaVar® Water White Conversion Varnish – Satin
- 1M.4302 MegaVar® Water White Conversion Varnish – Dull Rubbed
- 1M.4301 MegaVar® Water White Conversion Varnish – Flat

MEGAVAR® SEALER

Lenmar® MegaVar® Water White Conversion Varnishes are capable of being applied as self-sealing finishes. For professionals who prefer a traditional system, use Lenmar® MegaVar® High Solids Water White Conversion Sealer (1C.5300) to obtain a strong, stable base to complete the finish.

MegaVar® Water White Catalyzed Vinyl Sealer (1C.5300)

Versatile, non-yellowing sanding sealer that provides an excellent foundation under Lenmar® precatalyzed lacquers or conversion varnishes. Once catalyzed, this fast drying sealer offers an exceptional amount of solids for initial build, seals and fills most porous wood species in a single coat, and sands easily.
