## Ideal Uses:

- Edging
- Brush stroke
- Grain looks
- Padding
- Antiquing

Lenmar® QuickStain® Glazes are uniquely designed for the professional woodworker
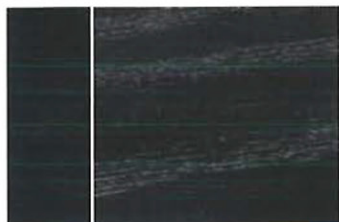

OIL BASED GLAZES

1GZ.11xx Line

Lenmar oil-based glazes are formulated to allow the professional finisher wide latitude in visual techniques.

- Sand the sealer or topcoat before applying glaze.
- Apply by spray, brush or rag. Ten minute open time allows creation of any desired effect.
- Dry time varies on amount of glaze applied, usually 45 minutes to 2 hours.
- Should be topcoated the same day.

Many times, each application of a glaze is a unique use. We suggest testing each finish for color and adhesion on sample wood before beginning any production.

The series consists of four standard colors and a base (1GZ.1000) used for making unique colors (Tint using industrial colorants).

Colors available:

White	Black	Warm Brown	Cool Brown
1GZ.1101	1GZ.1102	1GZ.1103	1GZ.1104
Formula (Qt.):	**Formula (Qt.):**	**Formula (Qt.):**	**Formula (Qt.):**

QUICKSTAIN® GLAZES

Ideal Uses:

- Faux grain effect
- Augmenting grain pore
- Accenting distress marks
- Antiquing

BREAKAWAY GLAZE BASE

1GZ.1200

Lenmar® Breakaway Glaze Base is formulated to be tinted with standard industrial colorants. It creates an opportunity for a different approach to glazing. Designed to be applied by spray only, it dries quickly (within 10 minutes), can be removed with Scotch-Brite pads to achieve various visual effects, and can be topcoated immediately after removal.
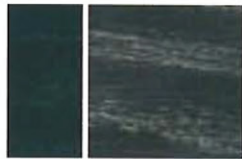

Nine formulations for standard colors are given below; however other colors can be created from this base (Tint using industrial colorants).

BREAKAWAY GLAZE FORMULAS

Raw Sienna (Qt.)		Mahogany (Qt.)		Raw Umber (Qt.)		Cordovan (Qt.)	
YO	1Y4	QR	31	YO	30	QR	28
RO	1	LB	29	BU	6	LB	8
BU	7			LB	24	MY	23

Off-white (Qt.)		Lamp Black (Qt.)		Burnt Sienna (Qt.)		Van Dyke Brown (Qt.)	
TW	1Y12	LB	1Y12	RO	32	BU	40
				QR	16	LB	19
		Burnt Umber (Qt.)		LB	11		
		BU	1Y12				

Raw Sienna

Off-white

Mahogany

Lamp Black

Burnt Umber

Cordovan

Burnt Sienna

Van Dyke Brown

Raw Umber

NOTATION FOR COLORANTS:
nYxx = n = number of ounces
xx = number of increments(48ths)

Example: 1Y12 = 1 ounce + 12 increments
Note: To use the formulas above in the 1GZ.1000 glaze base, double the colorant amounts.
