SUPERIOR COATINGS TECHNOLOGY

ASTERIA CLEAR CONVERSION VARNISHES

INCREDIBLY EASY TO USE - *ASTERIA is a finisher's dream-It is great off the gun, lays down flat, and cures exceptionally fast for quick turnaround.*

VERSATILE - *May be used with an approved companion sealer or used as a self-seal system.*

TOP PERFORMANCE - *Super-fast, durable, and flexible, ASTERIA is the perfect choice for kitchen and bathroom cabinetry, and high end architectural millwork.*

ASTERIA Clear - Product Advantages

- Containers are short filled to allow for the addition of catalyst so that you have the option to mix your material in the original container
- Fast cure and easy to spray
- 24 hour pot life
- Ready to spray (after catalyzation)
- Exceeds KCMA performance requirements when applied to manufacturer's specifications
- Water clear
- Excellent UV resistance
- Flexible and forgiving
- Self-Sealing or use with an approved sealer
- Excellent sanding properties
- Low HAPs, low VOC
- Non photo chemically reactive
- Phthalate free

SUPERIOR COATINGS TECHNOLOGY

ASTERIA PIGMENTED CONVERSION VARNISHES

ASTERIA white topcoat along with ASTERIA tintable white and neutral primer/surfacers, makes the ASTERIA pigmented system a perfect choice for finishing MDF as well as paint grade wood cabinetry.

ASTERIA Pigmented System - Product Advantages

- Containers are short filled to allow for tinting, AND the addition of catalyst so that you have the option to tint and mix your material in the original container
- Super high solids yet no reduction needed
- Excellent UV resistance
- Superior flexibility
- Excellent resistance to metal marking
- Exceptional water and chemical resistance
- Exceeds KCMA performance requirements when applied to manufacturer's specifications
- Non-photo chemically reactive
- Pthalate free
- Tintable white and neutral primers add versatility
